11th June 2016

"Sathya Sai Organisation must not involve themselves with other issues. They must focus only on love and connect with the heart of others through love. They should not aspire for wealth or authority and should seek to progress only through love. I do not desire temples or places of worship; I do not wish for rituals and worship. Our actions should be our ritual and our service should be our worship."

"With this confidence, involve yourself in service and put the world on the right path. Do not hanker after name and fame. Seek love instead. Know that this is the true mission and task of Sathya Sai Organisations."

Dear Brothers and Sisters

Aum Sai Ram

With Bhagawan's words as our commandment and His Work as our inspiration, the Service Wing is delighted to announce this year's Global Service Day programme.

The 9th of July 2016, is Global Service Day; a day that provides us with an opportunity to "*connect with the heart of others through love*" and to experience the joy that service confers. We regularly engage in service projects, however, on this very special day we are blessed with the opportunity to unify our efforts and to put into practice Bhagawan's teaching of Love All, Serve All across the length and breadth of the United Kingdom.

We look forward to every devotee (children, youth, adults and elders) participating in service activities on the day. Your centre service coordinators and centre presidents, with the full support of the National Service team, welcome your involvement in planning and delivering service projects in your local communities. These projects could be in the fields of Sociocare, Medicare, Envirocare, Aquacare and Educare.

We will shortly launch a "Global Service Day 2016" page on our national website. This will provide regular updates, so that we can share our plans with brothers and sisters across the UK and also capture some of the uplifting work that is undertaken around the country.

Brothers and Sisters, 2016 has been themed, the year of *Love in Action*, which is the very definition of Service. We are most excited and grateful for this opportunity, to serve in His Divine Mission and we eagerly anticipate your active participation.
